

# SONATA® Fungicide

SONATA fungicide provides excellent control of powdery mildews and rusts. Based on a patented strain of *Bacillus pumilus* (QST 2808), SONATA is an excellent fit for integrated disease management programs.

**PERFORMANCE** – SONATA contains a unique, patented strain of *Bacillus pumilus* (QST 2808) that produces an antifungal amino sugar compound that inhibits cell metabolism. SONATA also creates a zone of inhibition on plant surfaces, preventing pathogens from establishing on the plant.

**COMPATIBILITY** – SONATA is a flexible tank mix option and complements standard disease control programs. It is a liquid formulation with high suspensibility and is compatible with registered products such as copper, sulfur, and other foliar-applied micronutrients, adjuvants, insecticides, and fungicides.

**FLEXIBILITY** – SONATA has a 4-hour restricted entry interval, 0-day pre-harvest interval and is exempt from the requirements of residue tolerance, making it an excellent tool for late-season disease problems, right up to and including the day of harvest.
