

DESPERADO™ SELECTIVE HERBICIDE is a selective postemergence broadleaf herbicide. It has four active ingredients with two modes of action. It controls listed annual and perennial broadleaf weeds in Kentucky bluegrass, perennial ryegrass, tall and fine fescues, bentgrass, Bermudagrass and zoysiagrass turf. This product is also effective for tree, brush and woody plant control.

DESPERADO SELECTIVE HERBICIDE is quickly taken up by the leaves and stems of plants and weed growth ceases within hours. The weed control effects may be seen within a few hours to a few days after application. The most noticeable symptom is a bending and twisting of stems and leaves. Other symptoms progress from epinasty to leaves turning yellow, red or purple and finally to necrosis. Weed death occurs in 1 to 4 weeks after application, depending on the application rate, sensitivity of the weed and environmental conditions.

Benefits

- Non-2,4-D Formulation
- Strong on the toughest weeds
- Rainfast in as little as 3 hours

Features

- Triclopyr, Fluroxypyr, Sulfentrazone and MCPA for tough-to-control weeds
- 4-way non-2,4-D herbicide

Active Ingredients

Fluroxypyr-meptyl	4.01%
Triclopyr, triethylamine salt	3.86%
Sulfentrazone	0.67%
MCPA, dimethylamine salt	20.27%
OTHER INGREDIENTS:	71.19%
TOTAL	100.00%

THIS PRODUCT CONTAINS:

0.25 lb fluroxypyr acid per gallon or 2.79%. 0.25 lb triclopyr acid per gallon or 2.77%.

0.06 lb sulfentrazone per gallon or 0.67%. 1.49 lb MCPA acid per gallon or 16.55%.

Recommended Timing of Application

- Spring and fall applications are preferred to summer applications to older, drought-stressed weeds.
- Fall applications will control emerged winter annuals and perennials such as henbit, chickweed, clover and ground ivy.
- A sequential application is recommended for more mature weeds, dense infestations and for adverse environmental conditions.

Where to use

- Ornamental turfgrass sites.
- Residential/domestic sites including areas associated with household or home life including apartment complexes and condominiums.
- Ornamental turf sites including turfgrass established around residences, parks, streets, cracks in and around the edges of paved areas, retail outlets, cemeteries, industrial and institutional buildings, recreation areas, playgrounds, fairgrounds, and athletic fields.
- Institutional sites including properties or facilities providing a service to public or private organizations including, but not limited to, hospitals, nursing homes, schools, museums, libraries, sports facilities, golf courses and office buildings.
- Non-cropland sites including farmyards, fencerows or fence lines, highway, right-of-way (principal, interstate, county, private and unpaved roads): Roadsides, roadside ditches, road embankments, dividers and medians; Industrial Sites: Lumberyards, tank farms, fuel or equipment storage areas; Municipal, state and federal lands: Airports and military installations; railroad right-of-ways, railroad yards, railroad crossings and railroad bridge abutments; Utility rights-of-way: telephone, pipeline, electrical power lines and communication transmission lines.
- Agricultural Site: commercial sod production.
