

Pure Uptake, Pure Nutrition

PURIC® FC is a pure fulvic concentrate of unique organic acids. PURIC FC is isolated from pure leonardite ore rich in organic matter. Through a double extraction process, PURIC FC is concentrated into a clear, bioactive fulvic acid liquid to increase nutrient use efficiency.

Contains Non-Plant Food Ingredient:

	ACTIVE INGREDIENT:
3.00%	Fulvic Acid
	INACTIVE INGREDIENTS:
97.00%	(Carboxylic Acid and Water)
100.00%	

Product Applications:

- Pure fulvic concentrate
- 1–2 pints per acre in-furrow with TILL-IT® BLUE ZONE® ULTRA or other low-salt, high-ortho fertilizers
- 1/2–1 pint per acre with foliar applications, especially beneficial with micronutrients

PURIC FC is built into the in-furrow starter NUTRIO® TRIOLOGICAL™ and UAN based TILL-IT TOP DRESS™.

Features and Benefits

- High fulvic content and low use rate of 1–2 pints per acre
- For in-furrow, 2x2, banded and foliar applications
- Increase fertilizer efficiency, especially phosphorus
- See your sight gauge, PURIC FC won't turn your fertilizer black
- Enhance early season root growth and emergence, especially with NUTRIO® UNLOCK®
