

TILL-IT® BLUE-ZONE® ULTRA is a premium quality, low salt index product for foliar, starter, or pop-up applications. TILL-IT BLUE-ZONE ULTRA may be applied below, to the side, or in the seed furrow of most crops depending on local conditions and established agricultural practices.

### Features and Benefits

- High orthophosphate content for immediate availability, even in cold soils
- Suitable for foliar or in-furrow applications
- Ultra-low salt index – safe for direct seed application and application to tender foliage
- Contains EDTA chelated micronutrients
- Stimulates seedling root growth, emergence, and overall plant health
- Get your season off to the right start, early season phosphorus builds a strong root system

### Guaranteed Analysis:

Total Nitrogen (N) .....	6.00%
5.25% Ammoniacal Nitrogen	
0.60% Urea Nitrogen	
Available Phosphate (P <sub>2</sub> O <sub>5</sub> ) .....	24.00%
