PERFECTION[®] F(X) CARBON[™]

PERFECTION F(X) CARBON is a unique four-particle blend that delivers long-term feeding and enhanced nutrient efficiency with proprietary humic acids.

Powered by PURIC[®] WSG, PERFECTION F(X) CARBON is a pioneering new turf fertilizer blend with extracted humic acid for increased nutrient use efficiency. Why are extracted humic acids so important? The extracted humic acid in PURIC WSG goes to work immediately in the soil unlike non-extracted sources of raw Leonardite. This is significant because when do we want our fertilizer to work? At time of application and throughout the weeks and months when we expect performance. When adding functional carbon from PURIC WSG we make soil, fertilizer, and the plant work better together.

PERFECTION F(X) CARBON BENEFITS

- Increased nutrient availability and uptake
- Increased root growth
- Microbial stimulation
- Stress tolerance
- Increased soil CEC
- Improved soil structure

"Humic matter has been shown to increase the uptake of nitrogen by plants, and to increase soil nitrogen utilization efficiency. It can also enhance the uptake of potassium, calcium, magnesium, and phosphorus."

DESCRIPTION

PERFECTION® F(X) CARBON™ is a unique four particle blend that delivers long term feeding and enhanced nutrient efficiency with proprietary humic acids.

BENEFITS

- 16.60% controlled release nitrogen from WIL-COTE I polymer coated urea.
- Formulated for turfgrass areas with high performance needs.
- 3.8% iron for quick green-up without surge growth.
- Humic acids.

**POWERED BY
WIL-COTE
TECHNOLOGY®**

DIRECTIONS FOR USE

APPLICATION INSTRUCTIONS

- For professional use on residential and commercial landscapes, golf courses, athletic fields, parks and sod farms.
- For best performance, apply to dry turfgrass and water after application.
- Do not apply directly to an impervious surface or to frozen ground.
- Keep away from pools, ponds and any bodies of water. Do not contaminate potable water.
- This product contains iron, which may cause staining. Keep off unwanted areas such as sidewalks, patios, fences, and painted areas. Sweep or blow any residual material on to treated areas after application.
