

# HB0660 | 106 RM

GDU to Mid-Silk ..... N/A  
 GDU to Black Layer ..... N/A  
 Pollination for Maturity ..... N/A

## Hybrid Highlights

- Impressive yield potential with good response to high yield management
- Best placed in zone and north, on above average to high yielding farms
- Increased performance when populations are pushed
- Good option for narrow row management
- Strong overall disease package, including *Goss's wilt*
- Dual-purpose potential

Performance may vary from location to location and from year to year, as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible and consider the impacts of these conditions on the grower's fields. Always follow grain marketing and IRM requirements and pesticide label directions. Agronomic characteristics and ratings may vary with growing conditions and environment. Ratings are approximate and should not be considered as absolute. Ratings on new products are based on limited data and may change as more data are collected. Extreme or variable conditions may adversely affect performance. WILBUR-ELLIS logo and HARVEST BOUNTY are registered trademarks, HARVEST BOUNTY logo is a trademark of Wilbur-Ellis Company LLC.
