GDU to Mid-Silk 1320
 GDU to Black Layer 2775
 Pollination for Maturity Medium

Hybrid Highlights

- Acre eater! Good movement east to west, north to south
- Extremely consistent performance across yield environments, soils, and years
- Impressive overall agronomics
- Attractive late-season intactness
- Dual-purpose potential

Performance may vary from location to location and from year to year, as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible and consider the impacts of these conditions on the grower's fields. Always follow grain marketing and IRM requirements and pesticide label directions. Agronomic characteristics and ratings may vary with growing conditions and environment. Ratings are approximate and should not be considered as absolute. Ratings on new products are based on limited data and may change as more data are collected. Extreme or variable conditions may adversely affect performance. WILBUR-ELLIS logo and HARVEST BOUNTY are registered trademarks, HARVEST BOUNTY logo is a trademark of Wilbur-Ellis Company LLC.
