IDC Tolerance	Very Good
BSR	Below Avg
White Mold	NA
Root Knot	NA
Stem Canker	NA
Frogeye	NA
Cercospora	NA

Yield Environment Placement

Tough	Very Good
Variable	Excellent
High Yield	Excellent

Soil Placement

Stress Prone	Very Good
Variable	Excellent
Poorly Drained	Above Avg
Highly Productive	Excellent

Key

Performance may vary from location to location and from year to year, as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible and consider the impacts of these conditions on the grower's fields. Always follow grain marketing and IRM requirements and pesticide label directions. Agronomic characteristics and ratings may vary with growing conditions and environment. Ratings are approximate and should not be considered as absolute. Ratings on new products are based on limited data and may change as more data are collected. Extreme or variable conditions may adversely affect performance. WILBUR ELLIS logo and HARVEST BOUNTY are registered trademarks, HARVEST BOUNTY logo is a trademark of Wilbur-Ellis Company LLC.
