

A Clear Advantage

Maximize the Power of N[®]

TILL-IT[®] SERENE[™] 27-0-0

Stabilized nitrogen source coupled with nutrient holding capacity, all-in-one product for application flexibility.

TILL-IT SERENE is loaded with NDURE[®] DCD to slow nitrification and leaching, and contains the nutrient efficiency of PURIC[®] fulvic acid. Through a double extraction process, PURIC FC is concentrated into a clear, bioactive fulvic acid liquid to increase nutrient use fluency. TILL-IT SERENE ensures your nitrogen stays where your crops need it most—in the root zone.

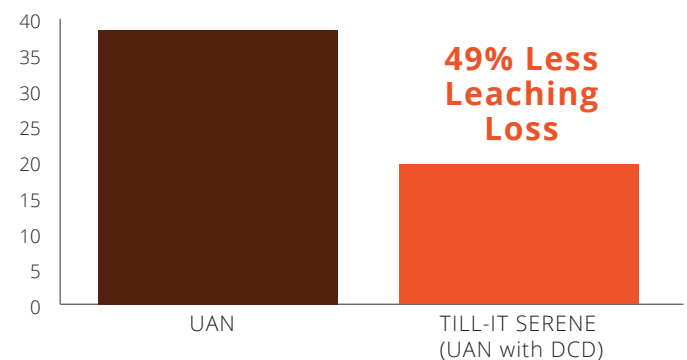

TILL-IT SERENE BENEFITS

- Clear formulation for sight gauge visibility (won't turn the tank black)
- Below-ground nitrogen protection
- Increased nutrient holding capacity
- Application flexibility—broadcast, band, dribble, Y-drop, or fertigation
- No in-field mixing
- Reduces nitrification and leaching

RATES AND APPLICATION

CROP TYPE	RATE PER ACRE
ROW CROPS	Apply 5-70 gallons per acre, as a broadcast, injection, or through irrigation. Incorporation within 3 days is recommended.
OTHER CROPS	Apply 5-50 gallons per acre, as a broadcast, drip-injection, or band. Incorporation within 3 days is recommended.

Nitrogen Lost Through Leaching (lb N/A)

Applied as a side-dress on corn
