

38F80

Forage Type: HF

Relative Maturity: Med-Full

Hybrid Highlights

- Wide-leafed, medium-tall plant
- Excellent standability
- Large red grain head for added tons
- High SCA tolerance

Regional Adaptability

Plant Characteristics

Average Seeds/lb (x 1000)	18.5
Silage Harvest Maturity	115
Average Days to Boot Stage	95
Plant Traits	None

Plant Ratings

Early Vigor	8
Standability	9
Drought Tolerance	7

Forage Management System

Hay	R
Silage	HR

Always follow grain marketing and IRM requirements and pesticide label directions. Agronomic characteristics and ratings may vary with growing conditions and environment. Ratings are approximate and should not be considered as absolute. Ratings on new products are based on limited data and may change as more data are collected. Extreme or variable conditions may adversely affect performance.
