

Your Shield for Superior Yields

TARIAN™ is a preventative fungicide for control of certain diseases and plant health in corn and wheat. TARIAN contains two different chemistry classes to minimize fungicide resistance: **Trifloxystrobin** (FRAC Group 11), which exhibits no known cross-resistance to other chemical classes, and **Propiconazole** (FRAC Group 3).

Diseases Controlled in Corn

- Gray Leaf Spot
- Rust; Common & Southern
- Northern Corn Leaf Blight
- Southern Corn Leaf Blight

Rate: 10-12 oz/A

Diseases Controlled in Wheat

- Rust
- Powdery Mildew

Rate: 10 oz/A

TARIAN Benefits

Two modes of action provide multi-target disease defense

Long-lasting disease control with greater yield potential and plant stress tolerance

Decreased severity and incidence of foliar diseases throughout the season
