

Block Key Diseases with Confidence

SPARRA™ contains the highest active ingredient of any EPA-registered phosphite on the market. This FRAC P07 broad-spectrum systemic fungicide-bactericide controls downy mildew, powdery mildew, *Pythium*, *Phytophthora*, and other key diseases in specialty and row crops. Applications may be made up to the day of harvest (0-day PHI) on agricultural crops, greenhouse crops, turf, and ornamentals.

Diseases Controlled

- Downy Mildew
- Phytophthora
- Pythium
- Powdery Mildew

Rates and Application

Foliar – Ground	3-5 quarts per acre in a minimum of 5 gallons of water.
Foliar – Air	1-3 quarts per acre in a minimum of 10 gallons of water.
Chemigation	Apply with normal irrigation schedule. Sprinkler: 2-4 quarts per acre in a minimum of 1000 gallons of water. Drip: 2-3 quarts per acre in a minimum of 100 gallons of water.

SPARRA Benefits

100% active ingredient derived from potassium phosphite

Unique formulation improved upon a well-established and efficacious active ingredient

Exceptional efficacy with lower use rate/acre vs. competitive products

Long term shelf-life stability for maximum performance
