

Shield Plants From Stress Events

BenVireo® Stimtide® is an innovative biostimulant designed to increase plant energy and strengthen plant metabolism for more resilient growth and development. BenVireo Stimtide reduces nutrient loss, phytotoxicity from herbicide application, and plant stress. Its action being quick and effective, it can be safely applied on all types of crops with benefits on nutrient uptake, yield, size and quality, and plant health.

LARGER, GREENER, LESS PLANT STRESS

BenVireo Stimtide with the grower's herbicide program in dry beans. Pictures are taken 8 days after application.

Impressive plant differences in 8 days after application.
Larger plants, more leaves, greener plant — less stress.

Simply more solar energy power available to create yield.
