

# Strengthen from the Inside Out with NUTRALIS™ CALCIUM

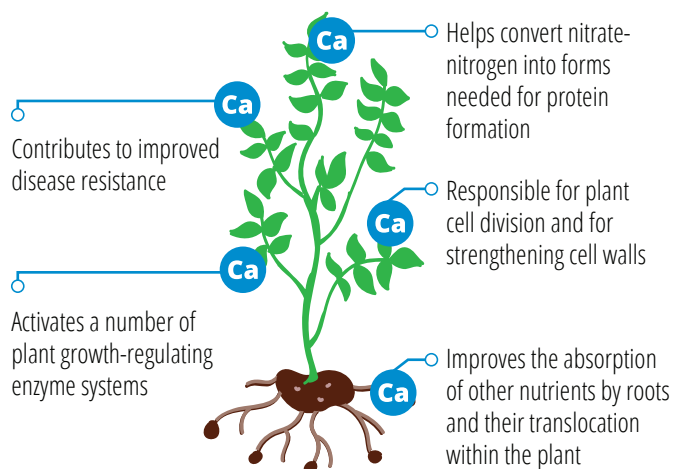

## NUTRALIS™ CALCIUM

NUTRALIS CALCIUM is a calcium acetate formulation that has superior solubility that maximizes calcium availability in the soil.

Foliar applications of NUTRALIS CALCIUM, you get the benefit of natural deliquescence. This product feature enables the formulation to absorb moisture from the atmosphere to keep droplets in the liquid form which increases plant adsorption and uptake. By improving internal structure and reducing fruit breakdown during storage, NUTRALIS CALCIUM helps maximize both yield quality and post-harvest performance.
