

Foam Stops Here.

NO FOAM® is a 10% active silicone concentrate designed to quickly knock down foam in any water-based pesticide spray mix. A small amount of nonionic emulsifier ensures fast, consistent control of both entrained air and surface foam in the tank.

Ideal for recirculating sprayers and high-agitation equipment, NO FOAM® works with all ag chemicals — even those with thickening agents — to keep your mix smooth, your application consistent.

DIRECTIONS FOR USE

RATE: 1 fl oz/100 gal. If existing foam is present: 1-6 fl oz/100 gal

SHAKE WELL BEFORE USE.

Air Applications: Add to premix tank as soon as possible during filling.

Ground Applications: Add to spray tank as soon as possible during filling.

Backpack or Handheld Applications: Use 1/16 to 1/8 teaspoon during filling.

NO FOAM BENEFITS

Prevents the formation of foam in spray tank

Breaks up foam already formed

Carefully formulated for agriculture use

For best results: Add before pesticide or surfactant

Especially useful in mixtures containing a surfactant

Not suitable for use with silicon-based adjuvants.
