## Legacy® and Musketeer® Plant Growth Regulator Features

- Improved growth suppression compared to trinexapac-ethyl
- Unsurpassed turf quality and color
- Suppression of *Poa annua* in overseeded bermudagrass
- Extended turf PGR spray intervals

## Program Recommendation

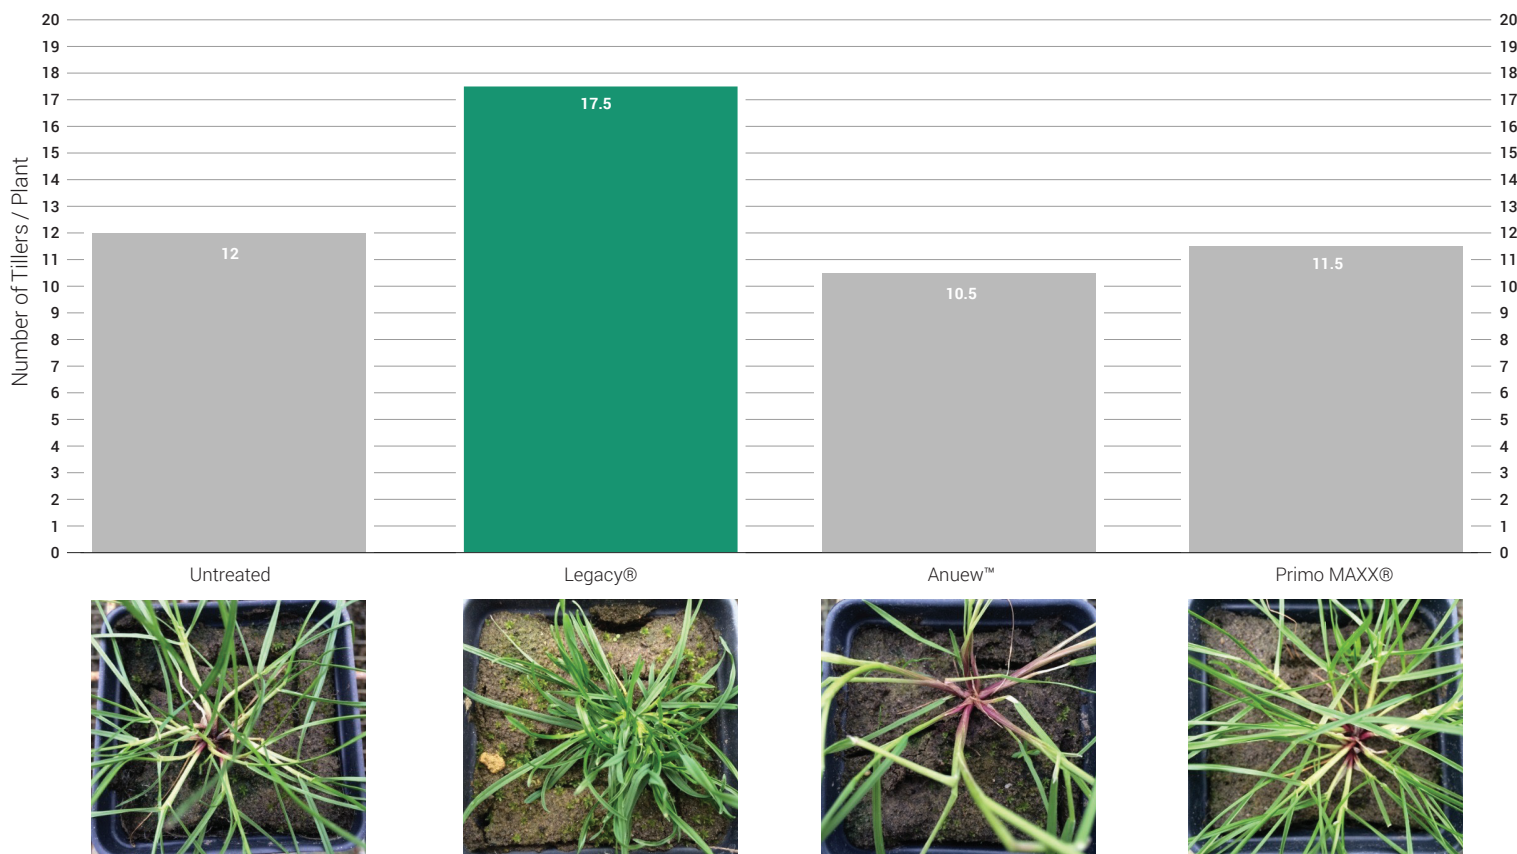

The following is a recommended program to achieve bermudagrass suppression with increased ryegrass tillering.

Stage	Product	Application Rate*	Objective
Proir to overseeding	Trinexapac-ethyl	Labeled rate	Suppress bermudagrass growth
After 1st mowing	Legacy®	10 fl. oz. / acre	Suppress bermudagrass growth and promote perennial ryegrass tillering
8-10 weeks after overseeding	Musketeer®	16 fl. oz. / acre	Suppress perennial ryegrass growth, increase quality, and suppress <i>Poa annua</i>

\* Application rates listed are general range suggestions and should be adjusted based on geography and label directions. Establish specific application rates based on small-scale treatment areas.

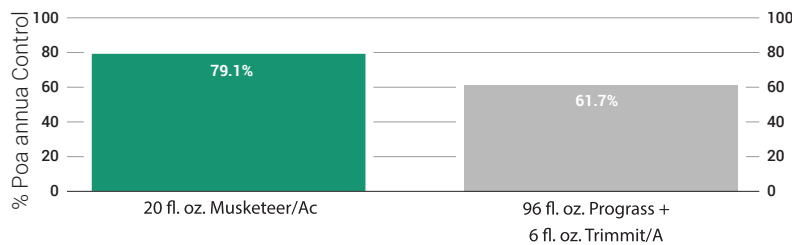

**Always read and follow label directions.** Not all products are registered in all states. SePRO reserves the right to cancel or modify this program or disqualify any sales at any time. Program applies to qualified end-user professionals. Offer only valid on purchases from authorized SePRO agents/distributors. Not valid for distributors, dealers, or any other re-sale entity. Rebates will be issued based on sales reported to SePRO by authorized agents/distributors within program dates. End-users must register for the 2025 Pinnacle EOP to earn rebate. Rebates will be paid as part of the 2025 program, in accordance with program guidelines. Purchases must be paid in full to receive a rebate. Legacy and Musketeer 2.5 gal SKUs qualify for this program.

# Perennial Ryegrass Tillering 42 Days After Treatment

# % Poa annua Control of Overseeded Bermudagrass Fairway
