

PROTECT THE PASS.

Every in season decision matters. Instead of adding risk, make the pass you're already making work harder. Adding an adjuvant helps protect your investment, improve performance, and ensure your fungicide works as intended, every acre, every time.

FEATURED ADJUVANTS

**Reduces surface tension
and increases penetration**

**Penetration, deposition,
drift and evaporation
management**

**Water conditioning,
pH buffering, and
improved wetting**

**Hard water management
and mineral tie up
prevention**

REDUCED EVAPORATION RATES

- Slows evaporation for better absorption
- More performance from every pass

IMPROVED DROPLET SIZE AND UNIFORMITY

- More uniform droplets, less drift
- Better coverage where it counts

IMPROVED UPTAKE

- Speeds cuticle penetration
- Delivers more consistent results

HARD WATER CONTROL

- Fights mineral tie-up
- Keeps actives working harder

USE AN ADJUVANT. EVERY TANK. EVERY TIME.
